PATENT

Attorney Docket no. 02307K-141312US
Client Ref. no. 96-540-4

IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

In re application of:

Charles L. Sawyers *et al.*

Application No.: 10/022,115

Filed: December 14, 2001

For: MICE MODELS OF HUMAN
PROSTATE CANCER PROGRESSION

Customer No.: 20350

Confirmation No. 4057

Examiner: Joanne Hama

Group Art Unit: 1632

PETITION UNDER 37 CFR §1.183

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

Pursuant to 37 CFR §1.183, Applicants hereby petition for waiver of the provisions of 37 C.F.R. §1.67 in order to file a supplemental Declaration where a joint inventor refuses to sign or cannot be found or reached after diligent effort.

Proof of the pertinent facts is submitted with the petition, to properly establish that a diligent effort has been made to obtain the signature of joint inventor Dr. Karen A. Klein. Specifically, Applicants are submitting the following items in Exhibit A: a photocopy of the letter sent to Dr. Klein (dated July 29, 2004) that accompanied the substitute Declaration, which was sent via priority FedEx, along with a pre-paid envelope for returning the signed substitute Declaration; and a copy of FedEx proof of delivery.

The Examiner deemed the original Declaration filed in this application as defective and required filing of a compliant Declaration. All of the inventors (Drs. Sawyers, Witte, Reiters, and Klein) signed the Declaration as originally filed in the application.

The last known address of Dr. Klein is 174 Denslow Avenue, Los Angeles, CA 90049. An attempt was made by Applicant's agents to reach Dr. Klein to obtain her signature on the substitute Declaration for the instant application at this address. The delivery to her home address was sent via FedEx (see Exhibit A). This delivery was signed for by someone at the residence (also Exhibit A).

Applicants have also repeatedly attempted to reach the inventor in November of 2003 to obtain signatures for Declarations for filing in U.S. Application Nos. 10/062,684; 10/062,738; and 10/062, 738, which also claim priority to the same parent applications. On November 18, 2003, Applicants' agent spoke to Dr. Klein on the phone. She confirmed at that time that her home address of record was current.

In view of the foregoing, we petition to proceed without Dr. Klein's signature. The other joint inventors, Drs. Sawyers, Witte, and Reiter, have executed the substitute Declaration for the application (enclosed). Because Dr. Klein has not signed the document after diligent effort, Applicants respectfully request waiver of the provisions of 37 C.F.R. § 1.67.

Please charge fee for filing this petition to our Deposit Account No. 20-1430 in accordance with the accompanying Fee Transmittal PTO/SB/17 submitted in duplicate.

Respectfully submitted,

Jean M. Lockyer

Dear Doctors:

Enclosed is a revised Declaration for the above application. (New Declarations are required in numerous continuing cases because the Declaration filed with the original parent application was defective.) Please sign, date and return the enclosed document in the envelope provided at your early convenience.

Thank you.

Very truly yours,

Jean M. Lockyer, Ph.D.

**TERMINAL DISCLAIMER TO OBVIATE A DOUBLE PATENTING
REJECTION OVER A PRIOR PATENT**

 Docket Number (Optional)
02307K-141312
In re Application of: Charles L. Sawyers *et al.*

Application No. 10/022,115

Filed: December 14, 2001

For: MICE MODELS OF HUMAN PROSTATE CANCER PROGRESSION

The owner, The Regents of the University of California of one-hundred percent interest in the instant application hereby disclaims, except as provided below, the terminal part of the statutory term of any patent granted on the instant application, which would extend beyond the expiration date of the full statutory term defined in 35 U.S.C. 154 and 173, as presently shortened by any terminal disclaimer, of prior Patent Nos. 6,107,540 and 6,365,797. The owner hereby agrees that any patent so granted on the instant application shall be enforceable only for and during such period that it and the prior patent are commonly owned. This agreement runs with any patent granted on the instant application and is binding upon the grantee, its successors or assigns.

In making the above disclaimer, the owner does not disclaim the terminal part of any patent granted on the instant application that would extend to the expiration date of the full statutory term as defined in 35 U.S.C. 154 and 173 of the prior patent, as presently shortened by any terminal disclaimer, in the event that it later: expires for failure to pay a maintenance fee, is held unenforceable, is found invalid by a court of competent jurisdiction, is statutorily disclaimed in whole or terminally disclaimed under 37 CFR 1.321, has all claims canceled by a reexamination certificate, is reissued, or is in any manner terminated prior to the expiration of its full statutory term as presently shortened by any terminal disclaimer.

Check either box 1 or 2 below, if appropriate.

1. ☒ For submissions on behalf of an organization (e.g., corporation, partnership, university, government agency, etc.), the undersigned is empowered to act on behalf of the organization.

I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of the application or any patent issued thereon.

2. ☐ The undersigned is an attorney of record.

DECLARATION UNDER 37 C.F.R. § 1.131

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

We, Charles Sawyers, Owen Witte, Robert Reiter, and Karen Klein, hereby declare that:

1. We are the sole inventors of the subject matter disclosed and claimed in the above-referenced U.S. Patent Application.
2. We completed the claimed invention in the United States prior to December 1995. Attached Exhibit A provides evidence of the completion of the invention. The dates on the Exhibit and unrelated information have been redacted. All redacted dates are prior to December 1995.

3. The present invention relates to methods of assessing the effect of a composition or treatment on human prostate cancer. The methods employ an immune deficient mouse that has a human prostate xenograft of locally advanced or metastatic prostate cancer. The mouse is subject to the composition or treatment and the effects are then determined.

4. Prior to December 1995, we submitted an INVENTION REPORT to our employer showing completion of the claimed invention. The INVENTION REPORT is attached as Exhibit A. The REPORT indicates that, prior to December 1995, we developed *in vivo* prostate cancer models using immunodeficient SCID mice. We established two xenografts that could be serially transplanted. These xenografts retain the clinical features of prostate cancer. These models can be used as a tool to screen potential prostate cancer drugs. In light of these results, we prepared the INVENTION REPORT.

5. In view of the foregoing, we respectfully submit that Exhibit A, the INVENTION REPORT, unequivocally establishes that the claimed invention was conceived of and reduced to practice prior to December 1995.

We further declare that all statements made herein of my knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements are made with the knowledge that willful false statement and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code, and that any such willful false statements may jeopardize the validity of the application or any patent issuing thereon.

The development of a unique model for human prostate cancer.
2. Give a brief description of the invention. Describe its purpose or utility, the state of the art prior to the invention, how it functions in detail, the best way of practicing the invention, and its advantages or improvements over existing practices. Use additional pages as needed and attach any descriptive illustrations or written materials.
Please see the attachment.

3. Identify the sources of support used in making the invention including the name of each source and, if applicable, the grant/contract identification number and name of the Principal Investigator. Research agreements often carry University patent obligations to sponsors.

Funding Source/Sponsor

Contract/Grant Number

Principal Investigator

UCLA Prostate Disease Program

Charles L. Sawyers

NIH Postdoctoral Training Grant T32-GM-08243 (Karen Klein)

4. Identify the sources of any proprietary biological, chemical, or other materials or computer software used in making the invention that were obtained under an agreement of confidentiality, restricted use, or other condition. Attach copies of the agreements.

Source of Materials

Identification of Materials

None.

5. Give the date the invention was first conceived.
6. Give the date the invention was first successfully tested in simulation or actual use.
7. Identify any persons, other than University employees, and their employers to whom the invention has been described orally or in writing.

None.

8. Identify companies that are or may be interested in using or marketing the invention.

INVENTION REPORT

(Charles L. Sawyers, M.D., Karen Klein, Ph.D.)

2. attachment

The major cause of morbidity and mortality from prostate cancer is advanced stage, androgen-independent disease. Based on currently available data it is believed that disease progression in prostate cancer results from specific genetic alterations. The purpose of this invention is to develop a system to propagate advanced stage human prostate cancer in severe combined immunodeficient (SCID) mice. The invention can be used as a tool to identify prostate cancer genes and to screen potential prostate cancer drugs.

Several groups have used athymic (T cell deficient) nude mice as tools to propagate human prostate cancer tissue, with limited success (Pretlow et al., 1991, 1993). We have used our experience with human leukemia xenografts (Sawyers et al., 1992) to develop an in vivo prostate cancer model using immunodeficient SCID mice. We have successfully established two xenografts which can be serially transplanted. These xenografts represent major improvements over previous work because they can be maintained and expanded indefinitely, they retain the clinical features of prostate cancer (i.e., expression of prostate specific antigen and androgen receptor), and we have developed androgen-dependent and independent sublines that reflect the different clinical stages of prostate cancer.

DECLARATION

As a below named inventor, I declare that:

My residence, post office address and citizenship are as stated below next to my name; I believe I am the original, first and sole inventor (if only one name is listed below) or an original, first and joint inventor (if plural inventors are named below) of the subject matter which is claimed and for which a patent is sought on the invention entitled: **MICE MODELS OF HUMAN PROSTATE CANCER PROGRESSION** the specification of which ____ is attached hereto or X was filed on **December 14, 2001** as Application No. **10/022,115** and was amended on _____ (if applicable).

I have reviewed and understand the contents of the above identified specification, including the claims, as amended by any amendment referred to above. I acknowledge the duty to disclose information which is material to patentability as defined in Title 37, Code of Federal Regulations, Section 1.56. I claim foreign priority benefits under Title 35, United States Code, Section 119 of any foreign application(s) for patent or inventor's certificate listed below and have also identified below any foreign application for patent or inventor's certificate having a filing date before that of the application on which priority is claimed.

Prior Foreign Application(s)

Country	Application No.	Date of Filing	Priority Claimed Under 35 USC 119

I hereby claim the benefit under Title 35, United States Code § 119(e) of any United States provisional application(s) listed below:

Application No.	Filing Date

I claim the benefit under Title 35, United States Code, Section 120 of any United States application(s) listed below and, insofar as the subject matter of each of the claims of this application is not disclosed in the prior United States application in the manner provided by the first paragraph of Title 35, United States Code, Section 112, I acknowledge the duty to disclose material information as defined in Title 37, Code of Federal Regulations, Section 1.56 which occurred between the filing date of the prior application and the national or PCT international filing date of this application:
